OF OPERATORS WORKING IN
THE HARSHTEST ENVIRONMENTS
IMAGINABLE.

CAMERAS

MOHOC® & MOHOC IR® VISIBLE LIGHT & INFRARED MODELS

THE WORLD'S FIRST MILITARY OPTIMIZED HELMET CAMERAS

The tactically designed MOHOC® Camera revolutionizes form-factor, ruggedization, and user interface. The patented helmet-contoured base and low profile housing eliminate snag hazards.

Waterproof to 10m/30ft and drop-proof to 2m/6ft, MOHOC® is military-grade tough and IP68 rated. Its single button tactile control with vibration feedback enables intuitive operation in any conditions.

MISSION CRITICAL HD IMAGES IN ALL LIGHT CONDITIONS

Both MOHOC® Cameras capture razor-sharp 1080p HD video and 12MP photos in visible light, low light, and white light. The new MOHOC® IR model also records in total darkness when used with infrared illumination (black & white images).

Stream live video by Wi-Fi, and relay to command over compatible tactical radios.

TACTICAL FORM FACTOR

HELMET CONTOUR, LOW PROFILE, SNAG-FREE

MILITARY RUGGEDIZED

WATERPROOF, DROP-PROOF, MISSION READY

INTUITIVE USE

SIMPLE TACTILE OPERATION & VIBRATION ALERTS

LENS ROTATION FOR INFINITE MOUNTING OPTIONS

Mount camera at any angle, then rotate lens to level the recorded image to horizontal. Enables exceptional versatility of mounting positions and perspectives.

DUAL POWER FOR VERSATILITY & EXTENDED BATTERY LIFE

MOHOC® comes equipped with a Li-ion rechargeable battery, but can also run on CR123A batteries. Up to 2 hr 45 min continuous record time with rechargeable and 5+ hours with CR123A.

iOS & ANDROID APP FOR LIVE STREAMING

Securely connect wirelessly with iOS or Android phones & tablets. Preview your shot, start and stop recording, take photos, live-stream video, playback recorded content, change settings, and transmit images from your device.

FULL HD VIDEO
1080p @ 60FPS

DUAL CAPTURE
Simultaneously take photos while recording video

12MP CAMERA
Manual, photo burst and time lapse

SNAG FREE OPERATIONS
Low profile, helmet-optimized form factor

MISSION READY
Military ruggedized, 2m (6.5ft) drop test

WATERPROOF
Waterproof to 10m (32.8ft), IP68 rated

CURVELOCK™ SYSTEM
Contoured to fit combat helmets securely

ONE TOUCH OPERATION
Single finger toggle, ideal when wearing gloves

DARK-USE SAFE
Vibration feedback and zero white light discharge

VELCRO® MOUNT
Instant secure attachment, no mounting hardware

LOW LIGHT & INFRARED
Auto low light adjustment & IR enabled model

WIDE ANGLE & TRUE FOV
140 degree non-distorted field of view

CAMERAS

VISIBLE LIGHT

- Both models capture visible light
- MOHOC® records full color
- MOHOC® IR records black & white

MOHOC® (MHDBK)

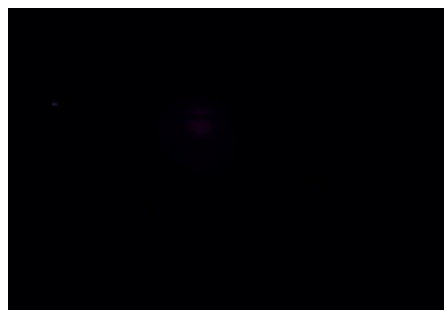

MOHOC® IR (MHIRBK)

INFRARED LIGHT

- Both models capture low light
- Both models capture white light
- Only MOHOC® IR captures IR illumination*

*Both images shot in darkness with Surefire® IR Scout Light®

MOHOC® & MOHOC® IR Specifications - Patents issued & pending	
Video	1080p at 60/30 FPS Full HD. 720p at 120/60/30FPS
Photo	12 MP. Manual photo, photo burst, time lapse (photo every 60, 30, 5, or 3 seconds)
Image Quality (MOHOC®)	Full HD Color in visible light
Image Quality (MOHOC® IR)	Full HD Black & White in visible and IR light spectrum from 420nm to 950nm
Dual Capture	Ability to take still photos while simultaneously recording video
Waterproof	10 meters (32.8ft). IP68 rated in standard case (without additional case or housing)
Durability	2 meter (6.5ft) drop test
Microphone	Stereo
Wireless	Wi-Fi 802.11b/g/n
Memory	MicroSD™ card compatible up to 64GB. Class 10 or higher required. Card not included
Battery	5+ hrs operation with 2x CR123A Lithium batteries (not included) and 2 hr 45 minutes with MOHOC® Li-Ion Rechargeable battery pack (included)
Connectivity	Charge and sync with USB (cable included) and HDMI for playback
Optics/Lens	Aperture F2.8, 140° Field of View, and CMOS Sensor
Low Light	Auto adjustment for optimal recording in low light environments
Rotating Lens	Manually rotate lens up to 190° to record horizontal video from any mounting position
Secure Attachment	Velcro® attachment direct to helmet or helmet cover. Lanyard included to tether for additional security
Additional Settings	Loop recording, video orientation adjustment, date & time stamp, and power save mode
Kit Includes	MOHOC® Camera, 1100mAh Rechargeable battery, 2 Velcro® mounting strips, USB cable, lanyard and bag

ACCESSORIES

MULTI-MOUNT

INCREASE THE CAPABILITIES OF YOUR MOHOC® CAMERAS

Developed specifically for use with the MOHOC® and MOHOC® IR Cameras, the Multi-Mount is designed to extend the functionality of your camera beyond the helmet.

This single accessory allows MOHOC® cameras to securely mount on flat surfaces, tripods, weapon rails, and the universe of action camera mounts.

Just like the MOHOC® cameras it supports, the Multi-Mount is purpose-built tactical equipment with innovative form-factor, military-grade ruggedization, and intuitive user interface.

FLAT SURFACE MOUNT

TRIPOD MOUNT

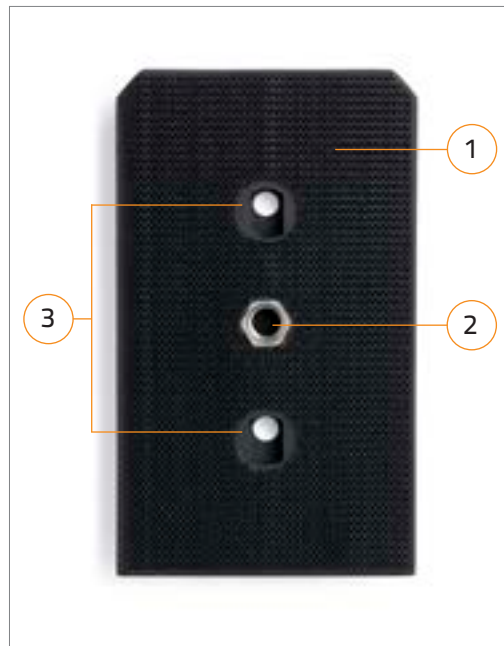

ACTION CAMERA MOUNT

Instantly secure your MOHOC® Camera to the top of the Multi-Mount with industrial-grade Velcro®. Then use the anchor points on the bottom to attach the Multi-Mount wherever your operation demands.

- 1 Flat base with VELCRO® hook to attach to flat surfaces
- 2 1/4" 20 nut to connect to tripod or Action Camera Mount
- 3 Picatinny Mount & KeyMod™ attachment holes

FLAT SURFACE MOUNT (VIEW OF UNDERSIDE)

ACTION CAMERA MOUNT

PICATINNY RAIL MOUNT (OPTIONAL)

OPTIONAL PICATINNY MOUNT

The Multi-Mount + Picatinny Kit attaches securely to Picatinny rails on a wide variety of weapons systems:

Multi-Mount (MH-MMT)

Includes Multi-Mount and Action Camera Mount

Multi-Mount + Picatinny Kit (MH-WMT)

Includes Multi-Mount, Action Camera Mount, and Picatinny Mount

ACCESSORIES

SHOULDER MOUNT

THE ULTIMATE BODY CAM

When your operations don't require a helmet, the Shoulder Mount provides an instantaneous body-worn alternative. Built with tactical nylon and secured by industrial-grade Velcro®, it's compatible with vests, chest rigs, backpacks, and other shoulder straps. Once positioned, simply turn the rotating lens on the MOHOC® to ensure a level shot.

AVAILABLE IN TAN (MH-SMT) AND
BLACK (MH-SMBK)

MOLLE CASE

STASH, STORE, SECURE

When not deployed, protect your MOHOC® in this MOLLE compatible, tactical-nylon case. With ruggedized buckle and microfiber cushion over the lens, the MOLLE Case is basecamp for an off-duty MOHOC®.

AVAILABLE IN TAN (MH-MCT) AND
BLACK (MH-MCBK)

SPARE GEAR

ARRIVE PREPARED

Equip yourself with genuine MOHOC® spare and replacement parts including Velcro® mounting strips, Li-ion batteries, and MicroSD cards.
